Mechanical completion
Hand over to client
As built

Reference to oil companies and contractors

Oil Companies

- Statoil/StatoilHydro/ Equinor/ConocoPhillips/ Shell NISC/Wintershall

Contractors

- Aker Kværner/Aker Solutions/Reinertsen/ Prosafe Drilling/ KCA Deutag/Aker Clean Carbon/ABB Offshore Systems/Aibel/Apply Sørco/ Moreld Apply/Wood PLC

Specialist engineer with E3D experience available for assignments

Qualifications: (Education and Experience)

- BEng, Offshore Engineering Oslo College, Oslo, Norway
- BEng(Hons), Offshore Engineering Heriot-Watt University, Edinburgh, UK
- 20+ Years of experience with piping design, layout, and offshore/onshore field surveys
- Muliti discipline experience
- Extensive knowledge about standards/specifications, Fabrication, Installtion, PED, NORSOK and TR2000,
- Working tools; E3D, PDMS, SAP, IFS, Microstation, STID, ProArc, Ayelix, Bluebeam, ProCoSys, DOCMAP, Lotus Notes, Office 365 and TEAMS

Rererence to offshore / onshore installations/plants (Field surveys and design)

Offshore oil rig installations:

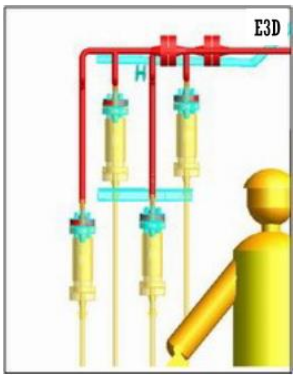
- Ekofisk Albuskjell Alfa
- Sleipner A, B, T
- Gullfaks A, B, C
- Oseberg A,B,D, • Snorre A, B
- Visund, • Draugen, • Grane
- Brage, • Kvitebjørn

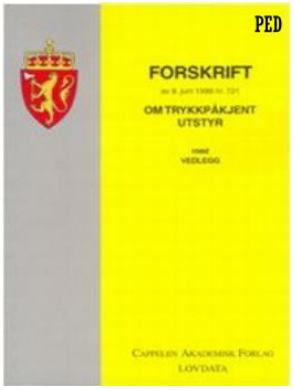
Onshore plant facilities:

- Ormen lange terminal, Processing gas plant
- Sture terminal, Oil and – condensate plant
- Mongstad terminal, Crude oil plant

Services/assignments (Carries out within the following disciplines)

- Discipline management/ LEAD engineer
- Training of engineers
- Design management
- Field surveys on oil rigs and plants
- Piping and layout design in E3D/PDMS
- Spooling in E3D/PDMS
- Tubing/fittings selection
- Valve selection
- Manual field mesurements
- Request electronic measuments from 3rd part
- Editing drawings in Microstation
- Work preparation in IFS; Lotus Notes
- Preparation of work packs
- Preparation of presentations and reports
- Quotes for fabrication materials, installation materials, mechanical equipments, insulation materials, painting, scaffolding, etc.
- Define shutdown work, hot work, cold work, habitat, pressure testing, painting, NDT, PMI, stress, layout, pipe supporting, PED (pressure equipment directive), etc.





Expertice

-Can get projects on track early in the project phase
-Highly experienced in field surveys, both offshore installations and onshore plants
-Design and layout that satisfies accessibility and ease of operation

Contact details:

Name: Tommy Hatlem
Expertice: Specialist Piping Design Engineer
Discipline: Piping/Layout, Mechanical
